##### **(c) WBSCM Offer Information**

Work Instruction for LTC offer submission may be found at:

[http://www.fsa.usda.gov/Internet/FSA\\_File/wbscm\\_work\\_instructions.pdf](http://www.fsa.usda.gov/Internet/FSA_File/wbscm_work_instructions.pdf) under “WI and Follow On Activities.”

Prospective contractors are responsible for starting the applicable processes early in the offering period and completing the applicable processes soon enough to ensure that their offer, modification, or withdrawal is received by the exact time specified herein for receipt of offers. Offer submission may include processes, such as: register vendor, authorize user access and roles, create eAuthentication account, accept WBSCM rules of behavior, register plants, assign users to plants, save plant responses and submit vendor response (offer).

Quantities will be awarded in increments of USDA standard truckload quantities, subject also to the offer's quantity constraints. Quantity constraints shall be entered in pounds.

An offer requires timely submission of all plant responses AND a vendor response. Plant response consists of:

- 1) STATE PRICES for applicable items in the Bid invitation item detail attributes section and
- 2) CERTIFICATION ANSWERS in the ATTRIBUTES section of the invitation header tab. Important: Submission of the plant response just saves the data entered – the vendor response must also be submitted.

Vendor response consists of:

- 1) Entering quantity CONSTRAINTS to limit the offer to a quantity to less than or equal to the maximum invitation quantity, and
- 2) Plant responses – submission of vendor response before the Offer Due Date and Time also

physically submits all previously submitted/saved plant responses. Failure to timely submit the vendor response will result in no offer for the applicable solicitation.

It is imperative that the offeror verify the accuracy of their offer. The offeror has the ability to call up the Vendor Response Log as part of the bid submission process by selecting the "Vendor Response Log" button and/or the offer may be printed from the WBSCM portal path Supplier>Bid Management>Vendor Response Log.

#### **4A52.214-2 Basis of Offers**

- 1) Offers shall be submitted as a differential price per pound to the CME Group (CME) barrel cheese cash market price for the Process cheese.
- 2) The Differential Price in WBSCM will accept positive, zero (\$0.0000), and negative offer prices (i.e., -\$0.0300). A blank price field will be interpreted as no offer for a particular state. A price of zero (\$0.0000) IS A VALID PRICE and is an offer of flat market price to the CME Group. Anticipated delivery cities by type and/or pack are identified elsewhere within this solicitation. Offerors are encouraged to enter a price for each state displayed on the Item Detail Attributes page.
- 3) The contract price for a delivery month shall be the total of the accepted differential price, PLUS the following economic price adjustment (EPA): the previous month average (PMA) of the CME Group cash barrel cheese trading as reported in USDA's *Dairy Market News*.
- 4) The month average for the PMA is a simple average of all the daily closing prices for barrel cheese during the calendar month of the CME Group cash trading. Previous month means the first full Gregorian calendar month before the first day of the delivery period on the contract delivery order.
- 5) In the event the CME Group prices are not available or do not accurately represent the market (as determined by the Government), the Government may use the National Agricultural Statistics Service (NASS) cheese price series (or suitable replacement) as the basis for calculating the PMA value for barrel or block cheese.
- 6) Offerors may submit offers for less than the quantities indicated.
