Prepared for Public Hearing  
Docket No. AO-166-A77; DA-08-06  
Cincinnati, Ohio  
August 19, 2008

Prepared by Midwest Market Administrator's Office

---

**From:** Ben Yale [ben@yalelawoffice.com]  
**Sent:** Monday, June 30, 2008 7:58 AM  
**To:** David Walker  
**Cc:** Michael McCloskey  
**Subject:** Proposed changes to the Class I Differentials

Good Morning David!

As you know some cooperatives in the Mideast Marketing Area have proposed increasing some Class I differentials by 10, 20 or 40 cents. All of these are in the "southern region" of the marketing area. As we evaluate this proposal we need some information for each of the months for the period from January 2007.

1. By each of the differential zones the volume of milk delivered to plants in those zones by class of milk.
2. The draw on the pool by application of 1033.75 on non-class I milk delivered to those plants if the new differentials were implemented.
3. The extra payments into the pool as a result of the new differentials.
4. The change in blend price at Cleveland as a result of this change.

If you have any questions please, call me.

*Sincerely yours*

Ben
