1/ Receipts are listed according to the location of the producer, not the location of the regulated handler. Regional and Total U.S. figures may not add due to rounding. Excludes volumes not pooled due to disadvantageous price relationships. 2/ Computed from data contained in "Milk Production, Disposition and Income - 2000 Summary", NASS, USDA. NOTE: NASS "milk marketed" includes milk sold to plants and dealers, milk sold directly to consumers, and milk produced by institutional herds. 3/ Milk marketed that is eligible for fluid use (Grade A in most States). 4/ Data cannot be shown as it pertains to the operations of fewer than 3 producers and, therefore is considered confidential. The data has been excluded from both the region total and the Total U.S.
