Dear Mr. English:

On September 29, 2015, the Organic Trade Association (OTA) and its members submitted a formal request to the U.S. Department of Agriculture (USDA) for a hearing to amend the 10 existing Federal milk marketing orders (FMMOs). The proposed amendment would provide a credit to organic fluid milk handlers against their monthly FMMO pool obligations, dependent upon the price paid to dairy farmers for organic milk. On May 10, 2016, USDA received your supplemental submission in support of the initial formal hearing request. USDA is continuing to review the market concerns raised and the information provided in your proposal, along with the supplemental information.

In addition, USDA received your June 30, 2016, request for data and additional information from AMS, NASS and ERS. The following is an update on the requested data and information:

- *List of Partially Regulated Distributing Plants (PRDPs)*: The requested information is enclosed.
- *Updated data on previously submitted requests*: The data is being compiled for future release.
- *PRDP volume and utilization data*: The data is unavailable or restricted due to data confidentiality concerns.
- *Milk sold to or on military facilities*: The data is not available because such route dispositions are not tracked separately.
- *PRDP financial impact on producer settlement funds and a breakdown of organic producer receipts*: As discussed, we need further clarification regarding this requested data.

We appreciate the opportunity to assist you with various information and data needs related to your proposal.

Sincerely,
