	December			

¹ Net pay prices received by dairy farmers for milk. Prices reflect all payments received for milk sold and all costs associated with marketing the milk. Prices are weighted averages of the prices reported for all orders receiving milk from the reporting area and are reported at the average butterfat tests. Prices include, for the most part, the assessment under the Cooperatives Working Together (CWT) program.

² For dates not shown, data were not published for that reporting area during that timeframe.

³ Areas for which prices are reported for at least 75% of the milk marketed under Federal milk orders.
