FGIS-PN-17-04

September 11, 2017

APPROVAL OF NEW NEAR INFRARED TRANSMITTANCE (NIRT) INSTRUMENT

Contents

1. PURPOSE	2
2. BACKGROUND	2
3. APPROVED NIRT INSTRUMENTS AND APPLICATIONS	2
4. EFFECTIVE DATE	3
5. FILING INSTRUCTIONS	3
6. QUESTIONS	3

The U.S. Department of Agriculture (USDA) prohibits discrimination in its programs on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, and marital or familial status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternate means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint, write to the USDA, Office of Civil Rights, Room 326-W, 1400 Independence Avenue, SW, Washington, DC 20250-9410, or call (202) 720-5964 (voice and TDD). USDA is an equal employment opportunity employer.

1. PURPOSE

This program notice announces that the Grain Inspection, Packers and Stockyards Administration (GIPSA) has approved the FOSS Model Infratec Nova NIRT instrument for official testing services of barley protein; corn oil, protein, and starch; soybean protein and oil; and wheat protein and wet gluten under the United States Grain Standards Act (USGSA).

2. BACKGROUND

Testing barley protein; corn oil, protein, and starch; soybean protein and oil; and wheat protein and wet gluten content as “official criteria” is authorized under Section 7(b) of the USGSA, as amended. The Federal Grain Inspection Service (FGIS) is responsible for officially determining and certifying, monitoring the accuracy, and approving the official equipment used for determining barley protein; corn oil, protein, and starch; soybean protein and oil; and wheat protein and wet gluten content.

FGIS evaluated and determined that the Infratec Nova NIRT instrument constitutes an engineering enhancement of the previously approved Infratec 1241 and provides results equivalent to those of previously approved model.

3. APPROVED NIRT INSTRUMENTS AND APPLICATIONS

The following table lists the NIRT models approved and calibration method that may be used for official determinations by grain and constituent.

Grain and Constituent(s)	Infratec 1229 with IRIS software and Infratec 1241	Infratec Nova
Wheat (ANN ¹) Protein Wet gluten	yes	yes
Barley (ANN) Protein	yes	yes
Soybean (ANN) Protein Oil	yes	yes
Corn (PLS ²) Oil Protein Starch	yes	yes
¹ Artificial Neural Network (ANN) calibration ² Partial Least Squares (PLS) calibration		

4. EFFECTIVE DATE

This program notice is effective upon receipt.

5. FILING INSTRUCTIONS

File a copy of this program notice with the NIRT Handbook. The handbook will be revised at a later date to include these changes.

6. QUESTIONS

Direct any questions concerning this program notice to the Inspection Instrumentation Branch at (816) 891-0401.
