

WHO WE ARE

Dairy Farmers of America (DFA) is the largest dairy Cooperative in the United States and a leading global dairy cooperative owned by nearly 11,000 farmer-owners.

As the fourth-largest global dairy company and largest U.S. dairy company, DFA is committed to providing value to our farmer-owners and bringing wholesome dairy products to customers and consumers around the world.

Jim Woods, Alexa Cabral and Warren Woods | DFA farmer-owner, DFA employee and DFA farmer-owner | Lodi, Calif.

GOVERNED BY FARMERS

Divided into seven geographic Areas, our grassroots governance structure ensures every farmer-owner is represented through elected farmer-leaders. Our Board of Directors is comprised of 48 farmer-leaders, in addition to our Area Councils and other elected positions.

DFA'S FARMER-OWNER NATIONAL FOOTPRINT

COOPERATIVE ADVANTAGE

In addition to our commercial investments that bring value-added returns and secure markets for our farmer-owners, we provide resources and programs to help our farmer-owners operate more efficiently and profitably. Examples include our farmer-owner, plant and customer milk price risk management programs, legislative advocacy, insurance and financing solutions and more.

A LEADER IN DAIRY PROCESSING

DFA is the largest processor of fluid milk (Class I) in the United States. We are also a diversified manufacturer of a wide variety of dairy products, including cheese, butter, fluid milk, ice cream, dairy ingredients and more, under well-known and established regional brands.
