Upper Iowa Angus Beef Program G-136 Specification

1 **<u>REQUIREMENTS</u>**

Beef carcasses certified under this specification shall meet the following requirements:

- a. Phenotypic or genotypic requirements of the American Angus Association's (AAA) Live Animal Specification;
- b. Classed as Steer or Heifer carcasses only¹;
- c. U.S. Prime, Choice, or Select and have a minimum marbling score of Slight 0^1 ;
- d. Lean color, texture, firmness and skeletal characteristics meeting the requirements for A or B maturity in the U.S. grade it qualifies for¹;
- e. Medium or fine marbling texture^{1,2};
- f. No hump exceeding 2 inches in height³;
- g. Practically free (not detracting from visual quality) of capillary rupture in the ribeye muscle; and
- h. Free of "dark cutting" characteristics.

2 <u>CERTIFICATION</u>

Carcasses to be examined for compliance with this specification shall be clearly identified and presented to an AMS grader for certification. Certification procedures for identification, the removal of preliminary identification marks (or other methods of control) from non-qualifying carcasses, and control of certified carcasses shall be in accordance with established Quality Assessment Division (QAD) procedures.

3 <u>LABELING</u>

Labeling of products derived from certified carcasses must follow Food Safety and Inspection Service regulations and policy guidelines and QAD procedures.

4 <u>FEES</u>

The costs of all grading and certification services performed by an AMS grader involving examinations, supervision, official documentation, and related services shall be borne by the person, group, or plant requesting the service.

USDA is an equal opportunity provider, employer, and lender.

¹ Determined in accordance with the "Official United States Standards for Grades of Carcass Beef."

² Evaluated using the USDA-AMS-LS-SB-02 Marbling Texture card (included in the Official USDA Marbling Photographs.) ³ Measured from a line formed by the extension of the top line (including the fat) and measuring the lean muscle (excluding the fat) perpendicular to that line in the center of the hump.
