Livestock Mandatory Reporting Cattle

LMR Cattle

- Packers that slaughter 125,000 head per year are required to report.
- Currently 38 live cattle plants are covered.
- LMR covers 92% of all fed cattle transactions.
- LMR covers 33% of all cow and bull transactions.

LMR Staff and Data

Four reporters carry out the live cattle reporting:

- 2 reporters cover negotiated cash and negotiated grid base purchases.
- 1 reporter covers formula, forward contract and negotiated grid net purchases.
- 1 reporter covers cow/bull purchases.

Handle 5,000 to 8,000 records per day:

- Generate, edit and publish 29 to 53 LMR reports per day.

Purchase Types

- **Negotiated Cash:** Cash or spot market purchase where the price is determined through buyer-seller interaction. The price is known at the time the deal is struck and delivery may be up to 30 days.

Purchase Types (cont'd)

- **Formula:** The advance commitment of cattle for slaughter by any means other than negotiated, negotiated grid, or forward contract. Formulas use a method of calculating price in which the price may often not be known at a future date.

Purchase Types (cont'd)

- **Forward Contract:** An agreement for the purchase of cattle, executed in advance of slaughter, under which the base price is established by reference to prices quoted on the Chicago Mercantile Exchange.

Purchase Types (cont'd)

- **Negotiated Grid:** The base price is negotiated between buyer and seller and is known at the time the deal is struck and delivery is usually expected within 14 days. However, the final net price will be determined by applying a series of premiums and discounts after slaughter based on carcass performance. The base is reported when established. The net is reported after slaughter and grading occurs.
- **Packer-Owned:** Cattle that a packer owns for at least 14 days immediately before slaughter. These are reported on the weekly LPS-115B only.

Reporting Forms and Reports

Live Cattle Daily Report – Current Established Prices [Form LPS-113]: Required to submit at 10AM and 2PM all transactions that have been priced since the last reporting period for steers and heifers (fed cattle only).

Data Review

- Reporters review submitted files at submission deadlines. Use checklists to ensure all expected plants have reported and then imports data files.
- For fed cattle there is an exclusion policy to automatically exclude all lots containing 10 head or less.
- Reporters look for any invalid records, contact plant, and correct data.
- Reporters identify data outliers and call the plant to inquire about lots in question before generating reports.
