Creating Opportunities for American Farmers and Businesses

Livestock Mandatory Reporting Swine

LMR Swine

- Packers that slaughter over 100,000 swine per year plant or a total of 200,000 combined sows/boars at multiple locations based on 5 year averages
- Currently 42 plants, that are located in 19 different states and owned by 21 companies, are submitting live swine data
- Currently covering around 97% of the industry
- 20 daily and 2 weekly reports are released
- 102 reports released every week

Staff and Data For LMR Swine

- LMR Swine reporting started in 2001
- Four Market Reporters carry out the live swine reporting:
 - At 7:00 AM, 2 reporters cover prior day purchase data for barrows and gilts, 1 covers prior day purchase data for sows and boars, and 1 covers slaughter submissions
 - At 10:00 and 2:00, all reporters cover 119A and 119B submissions
- Reporters handle between 7,000 and 11,000 records per day and have technical processes in place that flag any data that falls outside of preset parameters, and this data is confirmed by reporters through direct calls with buyers and sellers.
- AMS generates, edits and publishes 102 LMR Swine reports each week covering around between 2.0 and 2.5 million head per week.

LMR Swine Purchase Types

- Negotiated Purchase for both producer and packer sold (Types 1 & 5)
- Other Market Formula for both producer and packer sold (Types 2 & 6)
- Swine or Pork Market Formula for both producer and packer sold (Types 3 & 7)
- Other Purchase Agreement for both producer and packer sold (Types 4 & 8)
- Negotiated Formula for both producer and packer sold (Types 10 & 11)
- Packer Owned (Type 9)

Negotiated Purchases

(Types 1 & 5)

- A cash or spot market purchase by a packer of livestock from a producer under which the base price for the livestock is determined by seller-buyer interaction and agreement on a delivery day. Must be delivered within 14 days.
- **Example:** Producer delivers swine to packer and packer offers to pay a certain price. The producer agrees to the price and sells the swine.

Other Market Formula

(Types 2 & 6)

- A purchase of swine by a packer in which the pricing mechanism is a formula price based on one or more futures or option contracts.
- **Example:** Packer and producer agree to \$3.00 over the price posted by the Chicago Mercantile Exchange (CME).

Swine or Pork Market Formula

(Types 3 & 7)

- Purchase of swine by a packer in which the pricing mechanism is a formula price based on a market for swine, pork or a pork product, other than any formula purchase with a floor, window, or ceiling price, or a futures or options contract for swine, pork or pork product.
- **Example:** Packer/producer negotiated price posted on prior day purchase report on day of delivery plus \$2.00 for 2 loads/week for next 3 months.

Other Purchase Arrangement

(Types 4 & 8)

- A purchase of swine by a packer which is not a negotiated purchase, swine or pork market formula purchase, or other market formula purchase. (If it does not fit the other categories it goes here.)
- **Example:** Packer bases contract price from the cost of production as in: weekly average corn price + weekly average soybean meal price + plus yardage = final price.

Negotiated Formula

(Types 10 & 11)

- A purchase of swine by a packer which is similar to a negotiated purchase where there is interaction between a buyer and a seller to settle on a price but a formula is used as the basis. Must be delivered within 14 days.
- **Example:** Producer delivers swine to packer and packer offers to pay a certain formula price. The producer agrees to receive 1 cent over the IA/MN prior day price for this load.

Packer Owned

(Type 9)

- Swine that a packer, including a subsidiary or affiliate of a packer, for more than 14 days immediately before sale or slaughter; and sold for slaughter to another packer.
- **Example:** Swine traded between two plants owned by the same company.

How Data is Submitted for LMR Swine

- LMR Swine Forms:
 - LPS-118A, LPS-118B, & LPS-118C (Daily prior day purchases, daily prior day slaughter and 14 day slaughter estimate)
 - LPS-119A & LPS-119B (Daily actual and estimated purchases for the morning and afternoon reports)
 - LPS-120 (Weekly non-carcass merit premiums)

Items Reported on LPS-118C

- For purchases of barrows and gilts and sows and boars:
 - Total number of swine purchased by purchase type
 - The base price and weight for all swine purchased on a live weight basis
 - State of origin of the swine

Items Reported on LPS-118C
