**CERTIFICATION**

In order to certify lamb products with this specification, Marcho Farms must have an approved USDA PVP; having successfully passed a document review and onsite audit conducted by the Audit Review and Compliance (ARC) Branch and has been found in conformance with all ARC Procedures (<http://processverified.usda.gov/>).

Carcasses to be examined for compliance with the requirements of this specification shall be clearly identified when presented to the AMS agent for certification. Procedures for identification, certification, the removal of preliminary identification marks (or other methods of control) from non-qualifying carcasses, and control of certified carcasses shall be in accordance with established Meat Grading and Certification (MGC) Branch procedures. The AMS agent shall certify acceptable carcasses and complete the Live Animal/Carcass Certification Worksheet (Form LS-5-6).

The costs of all grading and certification services performed by the AMS agent involving examinations, supervision, official documentation, and related services shall be borne by the person, group, or plant requesting the service. Marcho Farms representatives must have any program changes approved by AMS prior to implementation.
